📍 Islamabad, Pakistan

EDUCATION

Bachelors: Computer Systems Engineering,
University of Engineering and Technology Peshawar
10/2022 – 07/2026 | Peshawar, Pakistan

Intermediate in Pre- Engineering,
Army Public Schools And College Systems
08/2020 – 06/2022 | Attock City, Pakistan

EXPERIENCE

BIT BUILD, Artificial Intelligence Intern
10/2025 – 02/2026 | Peshawar, Pakistan

- Assisted in developing AI and machine learning solutions for real-world applications.
- Worked on data preprocessing, model training, and model evaluation.
- Collaborated with team members on AI development and testing.
- Prepared technical documentation and project reports.

NAVTTTC, Deep Learning Trainee

03/2025 – 06/2025 | Peshawar, Pakistan

- Learned Deep Learning concepts including CNNs and Neural Networks.
- Built multiple AI projects using TensorFlow and Python.
- Gained practical experience in model training, evaluation, and deployment.
- Strengthened knowledge of Computer Vision and Deep Learning workflows.

LEADERSHIP EXPERIENCE

Computer Society, Vice President

10/2024 – 03/2026 | Peshawar, Pakistan

- Planned and managed technical events, workshops, and seminars.
- Coordinated volunteer teams and delegated responsibilities.
- Organized event logistics and ensured smooth execution.
- Worked closely with management and volunteers to promote teamwork and community engagement.

CERTIFICATIONS

AI for Everyone

Machine Learning Specialization

Supervised And Unsupervised Machine Learning

Advanced Data Analytics

SUMMARY

Computer Systems Engineering graduate specializing in AI, Machine Learning and Computer Vision. Experienced in data preprocessing, model training, and fine-tuning using Python and Deep Learning. Passionate about building intelligent solutions for real-world applications.

PROJECTS

CHASHM AI – AI-Based Smart Assistive Glasses 🔗

10/2025 – 06/2026

Tech: Python • YOLOv8 • PyTorch • Roboflow • TFLite

- Fine-tuned a custom YOLOv8 model using a self-prepared dataset.
- Performed data preprocessing, annotation, and augmentation to improve model performance.
- Optimized the trained model and exported it to TensorFlow Lite for edge deployment.

Shina Language Detection using Deep Learning Algorithms 🔗

05/2025 – 07/2025

- Developed a deep learning model for automatic Shina language identification.
- Performed text preprocessing, tokenization, and feature extraction to prepare the dataset.
- Trained and evaluated LSTM/CNN-based models using standard classification metrics.

Automated Chicken Pox Detection Using Deep Learning 🔗 , *Research Paper*

03/2025 – 05/2025

- Developed a CNN-based model for automated Chicken Pox detection from skin images.
- Applied image preprocessing and data augmentation to improve model performance.
- Evaluated model accuracy using standard medical image classification metrics.

SKILLS

- Programming: Python, C++
- AI/ML: Machine Learning, Deep Learning, Computer Vision, NLP, Object Detection, Transfer Learning
- Data Preparation: Annotation, Preprocessing, Augmentation, Dataset Labeling
- Frameworks: PyTorch, TensorFlow, YOLOv8, OpenCV, Scikit-learn
- Tools: Git, GitHub, Roboflow, Google Colab
- Soft Skills: Leadership, Teamwork, Communication, Problem Solving
